

## AMERICAN CIRCUITS

---

March 25, 2020

To Our Valued Stakeholder:

The spread of the COVID-19 virus is on everyone's mind. Please know American Circuits is dedicated to prioritizing our customers while ensuring the safety of our employees, as we have done these past 30 years.

**We will continue to operate throughout governmental closures** per the CISA guidelines given we supply electronic products and engineering services to Critical Infrastructure markets including healthcare, defense, energy, transportation, financial services, and many others. Rest assured we are committed to maintaining our excellent service during this time. If there are any changes to delivery dates, we will of course contact customers with updated information.

American Circuits is closely monitoring the COVID-19 situation, and we have implemented all necessary steps to ensure the health and safety of our workplace. This includes CDC guidelines and work-from-home options for office staff that balance virus mitigation without sacrificing service.

No one knows exactly what lies ahead. But together we will all emerge from this stronger and able to weather any situation. We sincerely appreciate your business and hope that you, your families, and your employees stay safe and healthy.

If you have any questions or concerns, please contact Molly Troutman or Mike Thompson at [aci@americancircuits.com](mailto:aci@americancircuits.com) or 704-376-2800.

Sincerely,

Ket Gondha  
CEO  
American Circuits, Inc.
